Investigating NIH RePORTER

w/ Dr. Beth Brittan-Powell, Director Joint Research Collaborations

NIH RePORTER is not just a database of NIH-funded research; it is a treasure trove of information for researchers. This workshop will show researchers and administrators alike how to use RePORTER as a tool to find POs, study sections, who applied to what FOA, and comparative costs. After the workshop, you will be able to go back to your desk or open your laptop and use this tool immediately.

RFP Info Session and Q&A

In addition, BBI administration will be present to answer any queries about this year’s Seed Grant Program RFP. Come with your project ideas or even your wish list for a collaboration.

1105 Kim Engineering Building
Wednesday, February 19
2:30 – 3:30 p.m.
